

# PDN20028: Libero Design Suite Software—Discontinuation of Support for Linux RHEL 6.6 Through RHEL 6.11 and CentOS 6.6 Through CentOS 6.11 Operating Systems

December 10, 2020

## Description

Microsemi will discontinue support for Linux RHEL 6.6 through RHEL 6.11 and CentOS 6.6 through CentOS 6.11 OS for Libero SoC software, for all releases after December 2020.

## Reason for Discontinuance

Microsemi continuously monitors the operating system (OS) versions and computer architectures in demand by our customers. We are updating the support platforms of Libero SoC to align with the timelines of Red Hat Enterprise Linux (RHEL) versions being offered by hardware vendors. The support for RHEL 6 (6.0 through RHEL 6.11) and CentOS 6 (6.0 through CentOS 6.11) OS will be discontinued effective November 30, 2020 and RHEL 7 and CentOS 7 will become the baseline OS for all new Libero SoC releases.

**Note:** Microsemi discontinued RHEL 5.0 through RHEL 6.5 and CentOS 5.0 through CentOS 6.5 operating systems RHEL Cent OS on September 22, 2017. Refer to [PCN17031](#).

## Customer Impact

No impact on the Libero SoC software releases until end of December 2020. Releases beginning January 1, 2021 will not support these platforms, and users will need to move their affected Linux PC or server OS to the following:

- RHEL 7
- CentOS 7
