Ms. Tamame Kutschka
Microsemi Corporation
14930 East Alondria Blvd.
La Mirada, CA 90638

Dear Ms. Kutschka:

Re: Manufacturer Certification, MIL-STD-790 Product Assurance Program, MIL-PRF-83536,
FSC 5945, VQ (VQH-14-027352)

Your facility at the above address was sample audited on January 17, 2013 for compliance with the requirements of MIL-STD-790 and MIL-PRF-83536. Based on this audit and acceptance of the corrective actions submitted, an acceptable level of confidence has been established that the compliance with the requirements has been successfully demonstrated; therefore, Microsemi is considered a certified manufacturer eligible to manufacture electro-mechanical relay products.

A MIL-STD 790 certificate for your facility is enclosed with this letter. This certification is valid until withdrawn by the qualifying activity. If warranted, this certification may be withdrawn by this Center at any time. During the certification period, your facility is subject to periodic re-audits. In addition, a drop-in audit in accordance with the requirements of MIL-STD-790 may be performed.

The results of the DLA Land and Maritime audit were found by examining a sampling of the manufacturer's normal manufacturing, testing and processing procedures. The acceptance of the corrective actions from the above referenced audit does not relieve the manufacturer of its contract obligation to deliver product that complies with all specifications requirements.

If you have any questions concerning this letter, please contact Ms. Tonnu at (614) 692-0586.

Sincerely,

for JOSEPH GEMPERLINE
Chief
Sourcing and Qualifications Division
