## RoHS, WEEE, and FCC Notification for Design Hardware and Software

---

Microsemi System-on-Chip (SoC) Products Group provides the listed product(s) under the following conditions:

This development kit / development board / development software with electrical accessories is intended for use for **ENGINEERING DEVELOPMENT, DEMONSTRATION, OR EVALUATION PURPOSES ONLY** and is not considered by Microsemi to be a finished end product fit for general consumer use. Persons handling the product(s) must have electronics training and observe good engineering practice standards. As such, the goods being provided are not intended to be complete in terms of required design-, marketing-, and/or manufacturing-related protective considerations, including product safety and environmental measures typically found in end products that incorporate such semiconductor components or circuit boards.

This evaluation board or kit does not fall within the scope of the European Union directives regarding restricted substances (RoHS), recycling (WEEE), FCC, or UL, and therefore may not meet the technical requirements of these directives or other related directives.

The user assumes all responsibility and liability for proper and safe handling of the goods. Further, the user indemnifies Microsemi from all claims arising from the handling or use of the goods.

**EXCEPT TO THE EXTENT OF THE INDEMNITY SET FORTH ABOVE, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES.**

No license is granted under any patent right or other intellectual property right of Microsemi covering or relating to any machine, process, or combination in which such Microsemi products or services might be or are used.

## EU RoHS Warning

This device has not been authorized for general sale with respect to EU Directives 2002/95/EC (RoHS). It is designed solely for the purposes of research and development and is only to be made available on a business-to-business basis.

## FCC Warning

This evaluation board/kit is intended for development use. It is not considered by Microsemi to be a finished end product fit for general consumer use and has not been authorized as required by the rules of the Federal Communications Commission. It is not, and may not, be offered for sale or lease, or be sold or leased, to the general consumer until authorization has been obtained. It generates, uses, and can radiate radio frequency energy and has not been tested for compliance with the limits of computing devices pursuant to part 15 of FCC rules, which are designed to provide reasonable protection against radio frequency interference. Operation of this equipment in other environments may cause interference with radio communications, in which case the user, at his own expense, will be required to take whatever measures may be necessary to correct this interference.
