PDN Number: 0805

PDN Change Level: Major

Subject: New Release of System Management Development Kit
(M1-SYSMGMT-DEV-KIT and M1-SYSMGMT-DEV-KIT-FP3)

Dear Customer,

This notice is to inform you that the ARM® Cortex™-M1–enabled System Management Advanced Development Kit now has an M1AFS1500-FG484 device instead of an M7AFS600-FG484. The kit includes the following:

- Power supply and evaluation board with an M1AFS1500 Fusion device

- FlashPro3 programmer (supplied only with M1-SYSMGMT-DEV-KIT-FP3)

- System management GUI

- User's guide and printed circuit board (PCB) schematics

- Demonstration design

As a result of this new board release, Actel decided to discontinue the current version of the System Management Development Kit. Table 1 lists the affected kits. Devices listed in the "Obsolete Part" column are being removed from the product list. The replacement part number is listed under the "Replacement Part" column. These replacement kits provide enhanced functionality. Actel will continue to provide technical support for both sets of boards.

Table 1. Affected Kits

Old Part Number	New Part Number
SYSMGMT-DEV-KIT	M1-SYSMGMT-DEV-KIT
SYSMGMT-DEV-KIT-FP3	M1-SYSMGMT-DEV-KIT-FP3

If you have any questions, please contact Actel's Application Technical Support at tech@actel.com.

Regards,

Actel Hardware and IP Solutions Marketing
