Subject: SmartFusion™ Development Kit A2F500-DEV-KIT replaces A2F-DEV-KIT, now discontinued

Dear Customer

This letter is to inform you of Actel's release of the SmartFusion Development Kit A2F500-DEV-KIT. This kit includes the same board and features of the A2F-DEV-KIT, but replaces the A2F200M3F SmartFusion device with the newly released, larger A2F500M3G. In addition, some features that were designed for use only with the A2F500 device will now be enabled.

Since the A2F500-DEV-KIT is a superset of the A2F-DEV-KIT, Actel has decided to obsolete the initial version of the SmartFusion Development Kit A2F-DEV-KIT. This notice is effective immediately; we no longer have stock to support new orders.

The replacement for this kit is the A2F500-DEV-KIT. Details about the replacement kit can be viewed on the Actel website:
