Product Discontinuance Notification (PDN) No: PDN1303
Subject: SmartFusion2 Development Kit (SF2-DEV-KIT-PP)

Description:

Microsemi is announcing the discontinuance of the SmartFusion2 Development Kit with PP silicon (SF2-DEV-KIT-PP) due to the fact that we have replaced the PP silicon with Production silicon for all development kits moving forward.

Reason for Discontinuance: We now have production silicon and want all of our development kits to have the latest silicon.

Customer Impact: Customers will be receiving production silicon on the development kits and the old PP development kit will be phased out once the remaining stock of SF2-DEV-KIT-PP has been depleted. There are no other changes to the board and it will function identically to the original kit

Replacement Parts: SF2-DEV-KIT-PP-1 is the new part number for SmartFusion2 Development Kits.

Products Affected by this Discontinuance: SF2-DEV-KIT-PP

Old Part Number	New Part Number
SF2-DEV-KIT-PP	SF2-DEV-KIT-PP-1

Contact Information: Microsemi SoC Corp.

Should you have any questions, please contact your Microsemi SoC Corp. Sales Representative.

Regards,
Microsemi Corporation

Any projected dates in this notification are based on the most current product information at the time this PDN is being issued, but they may change due to unforeseen circumstances. For the latest schedule and any other information, please contact your local Microsemi Sales Office, the factory contact shown above, or your local distributor. This PDN is confidential and proprietary information of Microsemi and is intended only for distribution by Microsemi to its customers, for customers' use only. It must not be copied or provided to any third party without Microsemi's prior written consent.
