4033A
1×15 Pulse Distribution Amplifier 5 V Output

Features
• Detects 1PPS, IRIG-B, or other
• Compact rack mount 1U-high package
• ±500ps differential delay between outputs
• LED status indicators for all inputs and outputs
• Status information via Ethernet

The Microsemi 4033A is a one-input, fifteen-output pulse distribution amplifier in a 1U, 19-inch rack mount chassis. It provides fifteen isolated outputs from a single input. An Ethernet port on the rear panel provides the capability to remotely monitor the status of the input and all output signals. Any failure in the unit will immediately raise an alarm to the Ethernet port. The front panel provides green LED status for the input and green/red for all output signals, as well as indicating an input of 1PPS, DC IRIG, or Other.

1×15 Pulse Distribution Amplifier 5 V Output

Specifications

Electrical
- Input:
  - 1PPS, IRIG (Unmodulated), and Other
  - Repetition rate: 1PPS – 1MPPS
  - Duty cycle: 0 – 50%
  - Input impedance: 50 Ω ±5 Ω
  - Logic one: >2.4 V
  - Logic zero: +0.8 V maximum
  - Connector: BNC female
- Outputs:
  - 1PPS, IRIG (Unmodulated), and Other (15)
  - Output impedance: 50 Ω ±5 Ω
  - Load impedance: 50 Ω
  - Logic one: 4.5 V minimum
  - Logic zero: +0.8 V maximum
  - Rise time: <2.0 ns
  - Fall time: <2.0 ns
  - Jitter: <50 ps rms
  - Skew between outputs: <±2 ns
  - Connectors: BNC female
- Status
  - Senses signal presence on all inputs and outputs
  - Green/Red LEDs on Front Panel
  - LED Indicators for 1PPS, DC IRIG, and Other
  - Network (RJ-45 connector)

Environmental and Physical Specifications
- Temperature: 0 °C to 50 °C
- Humidity: 0 to 95% non-condensing
- AC Input: 90–264 VAC, 10 W, 47–63 Hz
- Dimensions: 1.75” (4.44 cm) H x 19” (48.26 cm) W x 12” (30.48 cm) D
- Weight: 9 lb (4 kg)

Standards
- Safety: IEC 61010-1:2010 / EN 61010-1:2010
- EMC: EN61326-1 (2006) EMC Requirements for Measurement Control and Laboratory Equipment, Class A
  - EN61000-3-3 (2008) Voltage Fluctuation and Flicker Emissions

Rear View

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for aerospace & defense, communications, data center and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world’s standard for time; voice processing devices; RF solutions; discrete components; enterprise storage and communication solutions, security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, California and has approximately 4,800 employees globally. Learn more at www.microsemi.com.

Microsemi makes no warranty, representation, or guarantee regarding the information contained herein or the suitability of its products and services for any particular purpose, nor does Microsemi assume any liability whatsoever arising out of the application or use of any product or circuit. The products sold hereunder and any other products sold by Microsemi have been subject to limited testing and should not be used in conjunction with mission-critical equipment or applications. Any performance specifications are believed to be reliable but are not verified, and Buyer must conduct and complete all performance and other testing of the products, alone and together with, or installed in, any end-products. Buyer shall not rely on any data and performance specifications or parameters provided by Microsemi. It is the Buyer’s responsibility to independently determine suitability of any products and to test and verify the same. The information provided by Microsemi hereunder is provided “as is, where is” and with all faults, and the entire risk associated with such information is entirely with the Buyer. Microsemi does not grant, explicitly or implicitly, to any party any patent rights, licenses, or any other IP rights, whether with regard to such information itself or anything described by such information. Information provided in this document is proprietary to Microsemi, and Microsemi reserves the right to make any changes to the information in this document or to any products and services at any time without notice.
