Product Discontinuance Notification (PDN) No: 1403

Subject: Product Discontinuance Notice – SmartFusion2 Starter Kit with Engineering Sample Silicon Device, SF2-STARTER-KIT-ES-2

Description:

Microsemi is announcing the discontinuance of the SmartFusion2 Starter Kit with Engineering Sample (SF2-STARTER-KIT-ES-2). The replacement kit, SF2-484-STARTER-KIT, is similar to the previous kit in features and functionality. The only difference is in the SmartFusion2 device used on both of the kits; SF2-STARTER-KIT-ES-2 has the M2S050-FG896 device, while the SF2-484-STARTER-KIT has the M2S010-FGG484 device.

Soon we will be having the SmartFusion2 Starter Kit with the production silicon in the M2S050-FGG484 device also—in the next four to six weeks.

Reason for Discontinuance:

The previous kit, SF2-STARTER-KIT-ES-2, was available with ES silicon. We now have the production silicon available on our new SmartFusion2 Starter kit, SF2-484-STARTER-KIT. Hence, the earlier kit is being phased out.

Customer Impact: None

Last Order Date: None

Last Shipment Date: None

Replacement Parts:

SF2-484-STARTER-KIT is the new part number for SF2-STARTER-KIT-ES-2.

Products Affected by this Discontinuance:

Table 1 • Affected Part Numbers

Old part Number	New Part Number
SF2-STARTER-KIT-ES-2	SF2-484-STARTER-KIT
