April 30, 2014

**Customer Notification No: 1409A**

**Customer Advisory Notice (CAN)**

**Subject: Defective power supplies have been shipped with a few of the M2GL-EVAL-KITs**

**This is an Addendum to CN1409.**

Dear Customer,

Our records show that a few of the power supplies shipped with M2GL-EVAL-KIT, between September 2013 and March 2014, may be imperfect. The power supply may either fail to power up the board or the connector may not fit into the board correctly.

Our data shows that only a very small percentage of the power supplies are affected by this issue.

If you have received one of the defected power supplies, notify Microsemi SoC at: [RMA@microsemi.com](mailto:RMA@microsemi.com) to have a replacement sent to you.
