Subject: Pricing Changes on Mature FPGA Products

Dear Valued Microsemi Customer,

Microsemi Corporation is committed to developing innovative, leading edge products that will accelerate your time to market. More than any other FPGA company, Microsemi is also committed to supplying products to the market for extended periods of time and we have a long track record of supporting products for up to 20 years from market introduction. Longevity of supply is one of Microsemi's differentiating advantages over other suppliers.

In the case of extended lifecycle product offerings, manufacturing, assembly, and carrying costs are increasing in time for these mature technology products. Rather than discontinuing our mature FPGA products, we will continue to support customer needs for product availability, albeit increasing the prices in line with increased costs associated with supporting mature product lines. The price increases affect the mature product families listed in the following table:

Antifuse (+15%)	Flash (+15%)	RT (+10%)
AX	APA	RTSXSU
EX		RTAXS
MX		
SX		
SXA		

For all orders received after March 31<sup>st</sup>, 2015, pricing for product families AX, eX, MX, SX, SXA, and APA will be subject to an increase of 15%.

For all orders received after March 31<sup>st</sup>, 2015, pricing for Radiation Tolerant (RT) products in the table listed above will be subject to an increase of 10%.

Microsemi is providing you with a 60 day advance notification of this adjustment on mature FPGA products so that you may appropriately plan your actions.

If you have questions in regard to this price increase, please contact your local Microsemi sales representative.

Regards,

Andrew Girardi  
Senior Director, Business Operations  
Microsemi Corporation
