

**Microsemi Corporation**

October 24, 2016

**Product/Process Change Notification No: PCN17004**

**Change Classification:** Minor

**Subject:** Transfer of Logistics Processes from Avnet Logistics to JSI Logistics

**Description of Change:** Addition of JSI Logistics (Hong Kong) to Microsemi SoC Corporate suppliers' list

**Reason for Change:** Supplier consolidation to streamline the supply chain

**Application Impact:**

There is not any anticipated impact in form, fit, function, quality, and reliability to Microsemi SoC products based on the following:

- JSI Logistics is a world renowned logistics and value added supplier in the semiconductor space with many industry quality certifications.
- JSI Logistics shall use the same processes, procedures and systems to process Microsemi's products as used by the current supplier.
- Microsemi SoC personnel will be stationed onsite at JSI's facility for one month to ensure that the product shipped out of JSI Logistics meets the same quality requirements as those maintained at the current supplier and Microsemi SoC in San Jose, CA.

**Method of Identifying Changed Product:**

No change in Microsemi SoC products, but the transfer of logistics processes is for shipping, receiving, end of line processing as well as value added services like programming and add-a-mark.

- Current Supplier: Avnet Logistics (Hong Kong)
- New Supplier: JSI Logistics (Hong Kong)

**Products Affected by this Change:**

PCN17004 notifies that all Microsemi SoC products are impacted with the exception of ITAR-controlled products, M-Temp products, B-Flow products, and RT products. These products remain in their current location (San Jose, CA, USA) for all processing.

## Production Shipment Schedule:

Microsemi SoC products are planned to ship out from JSI Logistics from December 1, 2016.

## Qualification Data:

Site audit reports, verification, and validation data will be available by November 2016.

## Contact Information:

Karen Yezzo

Senior Manager - Materials, Logistics, and Compliance

### About Microsemi

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for aerospace & defense, communications, data center and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; enterprise storage and communication solutions; security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, Calif., and has approximately 4,800 employees globally. Learn more at [www.microsemi.com](http://www.microsemi.com).
