

Microsemi Corporation

November 16, 2016

Product/Process Change Notification No: PCN17004A**Change Classification:** Minor

Subject: Transfer of Logistics Processes from Avnet Logistics to JSI Logistics.

Description of Change:

Addition of JSI Logistics (Hong Kong) to Microsemi SoC Corporate suppliers list.

Addendum A: Revised effective date to November 1, 2016 and added impacted parts list.

Reason for Change: Supplier consolidation to streamline the supply chain.

Application Impact:

There is no anticipated impact in form, fit, function, quality, and reliability to Microsemi SoC products based on the following:

- JSI Logistics is a world renowned logistics and value added supplier in the semiconductor space with many industry quality certifications
- JSI Logistics shall use the same processes, procedures, and systems to process Microsemi's products as used by the current supplier
- Microsemi SoC personnel will be stationed onsite at JSI's facility for one month to ensure that the product shipped out of JSI Logistics meets the same quality requirements as those maintained at the current supplier and Microsemi SoC in San Jose, CA

Method of Identifying Changed Product:

There is no change in Microsemi SoC products, but the transfer of logistics processes is for shipping, receiving, end-of-line, and processing as well as value-added services like programming and add-a-mark.

- Current Supplier: Avnet Logistics (Hong Kong)
- New Supplier: JSI Logistics (Hong Kong)

Products Affected by this Change:

PCN17004A notifies that all Microsemi SoC products are impacted except for ITAR-controlled products, M-Temp products, B-Flow products, and RT products. These products remain in their current location (San Jose, CA, USA) for all processing.

Refer to [Appendix](#) for impacted products.

Production Shipment Schedule:

Microsemi SoC products are scheduled to be shipped out from JSI Logistics from November 1, 2016.

Qualification Data:

Site audit reports, verification, and validation data will be available by November 2016.

Contact Information:

Microsemi makes no warranty, representation, or guarantee regarding the information contained herein or the suitability of its products and services for any particular purpose, nor does Microsemi assume any liability whatsoever arising out of the application or use of any product or circuit. The products sold hereunder and any other products sold by Microsemi have been subject to limited testing and should not be used in conjunction with mission-critical equipment or applications. Any performance specifications are believed to be reliable but are not verified, and Buyer must conduct and complete all performance and other testing of the products, alone and together with, or installed in, any end-products. Buyer shall not rely on any data and performance specifications or parameters provided by Microsemi. It is the Buyer's responsibility to independently determine suitability of any products and to test and verify the same. The information provided by Microsemi hereunder is provided "as is, where is" and with all faults, and the entire risk associated with such information is entirely with the Buyer. Microsemi does not grant, explicitly or implicitly, to any party any patent rights, licenses, or any other IP rights, whether with regard to such information itself or anything described by such information. Information provided in this document is proprietary to Microsemi, and Microsemi reserves the right to make any changes to the information in this document or to any products and services at any time without notice.

About Microsemi

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for aerospace & defense, communications, data center and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; enterprise storage and communication solutions; security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, Calif., and has approximately 4,800 employees globally. Learn more at www.microsemi.com.
