

Microsemi Corporation
 December 12, 2016

Customer Notification No: CN17009

Customer Advisory Notice (CAN)

Subject: Pricing Changes on Mature FPGA Products

Description

Microsemi Corporation is committed to developing innovative and leading-edge products that accelerate time to market. More than any other FPGA company, Microsemi is also committed to supplying products to the market for extended periods of time and has a long track record of supporting products for up to 20 years from market introduction. Longevity of supply is one of Microsemi's differentiating advantages over other suppliers.

In the case of extended lifecycle product offerings, manufacture, assembly, and carrying costs have increased with time for these mature technology products. We are committed to support customer needs with extended product availability. To enable the extended product availability, prices will increase in line with increased costs. These pricing changes affect the product families listed in the following table:

Antifuse	Flash
AX	ProASIC ^{Plus} (APA)
eX	IGLOO PLUS (AGLP)
MX	ProASIC3L (A3PL)
SX	Fusion (AFS)
SX-A	SmartFusion (A2F)

Microsemi is providing you with a 60 day advance notification of this adjustment so that you may appropriately plan your actions.

Any orders received before February 12, 2017 with customer request dates before August 13, 2017 will ship at current prices.

For all orders received on or after February 13, 2017, pricing for product families such as AX, eX, MX, SX, SX-A, APA, AFS, A2F, AGLP, and A3PL will be subject to an increase of 20%. For the families listed, all standard part numbers and part numbers with specific requirements are affected.

Appendix A: The Affected Product Families with Part Numbers

The following table lists the affected part numbers.

Microsemi makes no warranty, representation, or guarantee regarding the information contained herein or the suitability of its products and services for any particular purpose, nor does Microsemi assume any liability whatsoever arising out of the application or use of any product or circuit. The products sold hereunder and any other products sold by Microsemi have been subject to limited testing and should not be used in conjunction with mission-critical equipment or applications. Any performance specifications are believed to be reliable but are not verified, and Buyer must conduct and complete all performance and other testing of the products, alone and together with, or installed in, any end-products. Buyer shall not rely on any data and performance specifications or parameters provided by Microsemi. It is the Buyer's responsibility to independently determine suitability of any products and to test and verify the same. The information provided by Microsemi hereunder is provided "as is, where is" and with all faults, and the entire risk associated with such information is entirely with the Buyer. Microsemi does not grant, explicitly or implicitly, to any party any patent rights, licenses, or any other IP rights, whether with regard to such information itself or anything described by such information. Information provided in this document is proprietary to Microsemi, and Microsemi reserves the right to make any changes to the information in this document or to any products and services at any time without notice.

About Microsemi

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for aerospace & defense, communications, data center and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; enterprise storage and communication solutions; security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, California, and has approximately 4,800 employees globally. Learn more at www.microsemi.com.
