

CoreSMIP v2.0 Release Notes

These release notes accompany the production release of CoreSMIP v2.0. This document provides details about the features, enhancements, system requirements, supported families, implementations, and known issues and workarounds.

Features

CoreSMIP (SMIP = Security Monitor Intellectual Property) can be used to enhance the security of a design implemented in a SmartFusion2 or IGLOO2 device. CoreSMIP raises an alarm flag on tamper detection and can initiate erasure (or zeroization) of the device.

Delivery Types

CoreSMIP is delivered in the form of a netlist. Verilog and VHDL netlists are included. A license is required to use the core.

Supported Families

- SmartFusion2
- IGLOO2

Supported Tool Flows

Use Libero v11.4.1 software or later with CoreSMIP v2.0 release.

Installation Instructions

CoreSMIP is available through the Libero SoC IP Catalog. The core can be downloaded from a remote web-based repository to the local vault. Once installed in Libero SoC, the core can be instantiated, configured, connected, and generated using the SmartDesign tool.

Known Issues and Workarounds

There are no known issues in this release.

Release History

Table 1 provides the release history of CoreSMIP.

Table 1. Release History of CoreSMIP

Version	Date	Changes
2.0	August 2014	First production release.

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for communications, defense and security, aerospace, and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices, and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; security technologies and scalable anti-tamper products; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, Calif. and has approximately 3,400 employees globally. Learn more at www.microsemi.com.
