

Product Change Notification

PowerDsine's 9001G/AC End Of Manufacture (EOM) Notification

October 8th, 2012

Dear Valued Customer,

Microsemi will be discontinuing manufacture of the PowerDsine 9001G product. Current inventories in our Boston and Netherlands warehouses will not be restocked as they sell down. Microsemi will continue to support the PD-9001G through the 1 year life of the warranty.

Please refer to **Table A** for detailed list of discontinued products and information on the replacement products.

In order to accommodate your continuing requirements, Microsemi is offering the PowerDsine 9001GR as a replacement for the 9001G. The 9001GR supports the same features set of the 9001G product (1-port, 802.3at, 10/100/1000Mbps).

Table A:

P/N	Description	Replacement
PD-9001G/AC	1-Port PoE Midspan, 802.3at, 30W, 10/100/1000BaseT, AC Input	PD-9001GR/AC 

The 9001GR/AC is backwards compatible for 9001G applications, it also offers the following improvements:

- Improved power efficiency
- Improved LED visibility
- Improved EMI performance
- Smaller size / form factor.

We value your feedback and we appreciate early communication for any questions or concerns you have regarding this product discontinuance.

Please contact Microsemi Customer care: +972-9-7755123, in the USA: + 1-877-480-2323 and we will do our best to help you with your transition.

Best Regards,

Sani Ronen

Director of Product Line Management, PowerDsine Systems
