Subject: Libero IDE / Designer Software 6.2 SP1 and Silicon Sculptor Software v3.90/v4.53.0

Dear Customer,

Actel announces the release of Libero® Integrated Design Environment (IDE) and Designer Software 6.2 SP1 and Silicon Sculptor Software v3.90 (DOS)/v4.53.0 (Windows). These software releases include modifications that affect the RTSX-SU and SX-A product families. The Silicon Sculptor Software v3.90/v4.53.0 release features new programming algorithm support for the SX-A family. For the RTSX-S and RTSX-SU product families, the AFM files have been updated to improve programming. The AFM, generated with v6.2 SP1, requires that Silicon Sculptor v3.90/V.54.0 is used for programming. This applies to all RTSX-S and RTSX-SU devices.

For additional information, please refer to the following release notes:

Designer:
