PCN Number: 1203

PCN Change Level: Major

Subject: Change to Fusion Starter Kit (AFS-EVAL-KIT)

Dear Customer,

Microsemi SoC Products Group is announcing an immediate change to the Fusion starter Kit (AFS-EVAL-KIT). The kit will now ship with the FlashPro4 programmer included instead of the FlashPro3 programmer. The FlashPro4 is backwards compatible with the FlashPro3 and we do not anticipate any change to the functionality of this kit.

Please refer to the website for more information on the Fusion Starter Kit:

www.microsemi.com/soc/products/hardware/devkits_boards/fusion_starter.aspx.

Regards,

Microsemi SoC Products Group
