

Microsemi Corporation

April 2014

Customer Notification No: CN1406

Customer Notice (CN) – No Action Required

Subject: Change of Format – SoC RT Data Packages

Beginning in April 2014, Microsemi will begin converting Data Packages from hard copy binders to CD format. The content of the Data Package will remain the same.

Please note that this only affects Data Packages for RT products -> Part Number "Data Package." The Data Package is an optional orderable item for RT products. A Data Package also ships, at no additional charge, with our RT "EV-flow" and Class-V shipments.

The format for other types of data that is shipped to customers is not being changed at this time.

Several customers have been requesting Data Packages in electronic format; the CD format makes storage and retrieval of Data Packages easier for customers.
