Microsemi Corporation

October 26, 2016

Product/Process Change Notification No: PCN17001

Change Classification: Minor

Subject: Discontinuing Windows (XP and Vista) OS support for Silicon Sculptor FPGA Programming Software

Description of Change:

Silicon Sculptor is the Microsemi FPGA programming software that supports Silicon Sculptor 3 programmer. This software is supported on Windows platform only.

This PCN provides notification that the standard Windows XP and Windows Vista operating system support will be discontinued after the release of Silicon Sculptor software version 5.22.14 (last version to support Windows XP and Vista operating systems).This version of Silicon Sculptor software will be released in the month of December 2016.

Reason for Change:

The reason for discontinuation of the Windows XP and Windows Vista operating systems' support is the reduced number of users for these operating systems.

Application Impact: Customers are recommended to use the supported Windows platforms referenced in the following link:
http://www.microsemi.com/products/fpga-soc/design-resources/programming/silicon-sculptor-3#overview

Products Affected by this Change:

SILICON-SCULPTOR 3
